

Late/Biogas

# AGROLINO FAO 200

## In Your Field...

**AGROLINO** delivers heavy yields for both forage and biogas segments where a long growing season is available.

FORAGE

BIOGAS

## A heavy hitter delivering a knockout punch!

### Characteristics / Quality

- High yields – 19.5 t/ha DM ensures clamps are full
- Balanced starch content (33.7%), and excellent energy concentration (11.6MJ/kg DM) – ideal for high maize inclusion ruminant diets
- Very suited to favourable sites with a longer growing window
- High early vigour widens the drilling options
- Provides harvest security with a wide harvest period, particularly in the AD segment
