

Early/Maincrop

KWS ANASTASIO FAO 180/190

In Your Field...

KWS ANASTASIO offers you a high level of harvest flexibility, and is suited to all your needs, be it forage, biogas, crimped or dried grain.

Maincrop silage and grain hybrid for every season!

Characteristics / Quality

- Leading DM yields – 19.2 t/ha DM (103%) to fill your clamps – forage or biogas
- Great starch content (32.5%) for high maize diets
- High energy content (11.56 MJ/kg DM) to deliver ration performance
- Highly suitable for dry grain production
- Leading early vigour (7.1) on all soil types provides a rapid establishment
